LANDSCAPE SERVICE

MANY years' experience and a natural fondness for the work have given us special skill in planning effective gardens and artificial landscape planting. We are always glad to submit plans and estimates on any work of this sort, whether it is large or small. There is no charge and no obligation on your part unless we are given the job to do.

Because we grow all different kinds of nursery stock which are needed in this kind of work, we have had a wonderful opportunity to study their needs and their most effective use. This practical knowledge enables us to develop a garden or landscape that looks even better than the blue-print, and grows into permanent grace and dignity as the years go by.

We are also expert "trouble shooters" with respect to all difficulties in the garden. If you have any difficulty with plants, lawn, trees, or flowers, we are always glad to make a personal call, within reasonable distance, or to answer questions by mail.

With prices for nursery stock at their present low level, it is a propitious time to rearrange perennial borders, design rose-gardens, and make evergreen plantings. Let us submit plans now without any obligation on your part and show you what can be done with very little expense.

TIME TO PLANT

Plant Perennials from April 1 to June 1 and September 1 to November 15.

Plant Roses from March 15 to May 15 and October 15 to December 1.

Plant Peonies and Irises from September 1 to frost.

For late planting in the spring, we carry field-grown perennials and plants in pots.

DELIVERY. Unless otherwise instructed, we will ship all orders to arrive at proper planting-time. Postage prepaid when cash accompanies order.

TERMS. If you desire to open a charge account, please send bank or trade references with order.

VISITORS WELCOME. We shall be very glad to see you if you are in the vicinity of our Nursery and will be glad to show you over the grounds and point out the quality of our stock.

Prize-Winners

OUR Delphinium Hybrids have been consistent winners of prizes at all the shows where they have been exhibited. The illustration at the bottom of this page is our exhibit of a hardy perennial garden at the Asbury Park Fall Flower Show. This exhibit received the Society's Gold Medal for the best commercial exhibit and the City of Asbury Park Cup for the most meritorious exhibit at the show. Note how the Delphiniums predominate.

The illustration at the side of the page is a reproduction of a spike grown at our Nursery, and is typical of what our strain produces. The unusually fine range of color, perfect form, and enormous size of these Hybrids have been achieved by years of careful study and selection of seed.

Delphiniums grow nicely in many different kinds of soils, but they especially like a heavy clay loam. When planting, use one small handful of a good organic fertilizer, such as Driconure, and one of a good commercial fertilizer to each plant. Incorporate these well with the soil in each hole before placing the plant. The field-grown clumps should be planted so that the crown is barely covered with soil. Young pot-plants should be planted so that the ball is covered about one-half inch with soil.

Delphiniums like plenty of water. During dry spells, water thoroughly at least once a week. An occasional light sprinkling in the evening, after a hot day, is very beneficial. Always keep the ground well cultivated to a depth of about 2 inches. If the lateral growths on each spike are removed, the individual flowers will be larger.

The culture of Delphiniums is quite simple, but if exhibition flowers are desired for the shows, a little extra care will produce wonderful results.

STRONG PLANTS

Selected Plants. From thousands of wonderful hybrids growing in our fields each year we select a limited number of the very finest types in separate shades of

My dear Mr. Turner:

I took 12 Delphiniums to England with me to plant in our garden over there, and they did so wonderfully well that they won a Blue Ribbon at the show in London. I thought you would like to hear it. Hope to see you at the Garden Show. I wanted 150 plants to plant at Roxbury this fall, but we returned too late. Thanking you, I am,

Sincerely,
Mrs. JOHN R. HUCKLEY.

Turner Bros.' Delphinium Hybrids

We have developed these beautiful perennial flowers into one of our most important specialties. Neither time, patience, nor expense has been spared to bring them to their present state of perfection. These greatly improved hybrids produce numerous massive and stately spikes 5 to 6 feet high, bearing large, double and semi-double flowers of perfect form throughout one-half to two-thirds their entire length. The colors range from palest blue to deepest indigo and from most delicate mauve to glowing royal purple, passing through innumerable intermediary pastel shades of bewildering richness and variety.

Our keenest desire is to have you grow these lovely things in your garden. They will stand comparison with any Delphiniums in the country.

HARDY PERENNIALS

CHRYSANTHEMUM

ALADDIN Plant Patent No. 64

In coöperation with the introducers of this fine, patented novelty, we are offering this superb, new, summer-flowering Chrysanthemum. It is the earliest of all garden varieties to bloom, giving fine Chrysanthemums for two months at least before ordinary types begin to flower, and continuing to produce sheaves of lovely bronzy flowers from late August until freezing weather. Already it is a favorite with Chrysanthemum growers. 30 cts. each, \$3 per doz.

AQUILEGIA • COLUMBINE

One of the finest garden plants for spring and early summer bloom, continuing over many weeks. Columbines are hardy, sound perennials which live for many years, thriving in either sun or shade and producing flowers in lovely profusion. We offer strong plants raised from selected, long-spurred strains, with special emphasis upon the more delicate and exquisitely tinted colors, ranging from pure white through shades of cream, lavender, and pink to deep yellow, blue, and rosy scarlet. 25 cts. each, \$2.50 per doz.

HARDY ASTER

Supreme among late summer and early autumn cutting flowers are the perennial Michaelmas Daisies, or Hardy Asters. Under proper cultivation and with judicious thinning of the stalks they will produce 3- to 5-foot sprays, covered with myriads of starry flowers in shades of pink, lavender, violet, and sky-blue, unsurpassed for ornamental landscape effect and excellent decorative cutting material. We have a fine selection of varieties in different heights and colors. 25 cts. each, \$2.50 per doz.

HARDY PERENNIALS and ROCK-PLANTS

These old-fashioned, hardy flowers have won an important place in the gardens of most flower-lovers because of their varied formation and gorgeous range of color. Year after year they are among the first flowers to greet us in the spring, with renewed vigor after the winter rest, and the last flowers to leave us in the fall.

Considering the countrywide trend toward economy, the perennial garden, in the long run, is the most economical garden to plant because

once planted it eliminates the expense of replanting every year. Many varieties are useful as cut-flowers. They need very little care outside of weeding and cultivation. After the first hard frost, cut the tops down and cover with a good coat of well-rotted manure.

Plants of the following varieties are fine, strong, nursery-grown stock, with the exception of a few that are best transplanted from pots, and will bloom abundantly this year.

Japanese
Iris

Azalea hinodegiri

There are three shrubs on this page of which we are particularly fond. The Azalea at the top is one of the finest of all bedding plants and covers itself with myriads of brilliant scarlet flowers in early summer; the deliciously scented *Daphne cneorum*, whose clusters of soft pink flowers are illustrated below, blooms early in the spring and delightfully and fragrantly again in the autumn; and the bold purple-flowering Summer Lilac, or Butterfly Bush, *Buddleia*, which is pictured directly below.

German Iris

There are two great classes of Iris, the Japanese type, illustrated above, which blooms in mid-June and produces splendid flowers from 6 to 10 inches across, and the common or German Iris, of which hundreds of varieties exist, and whose fragrant flowers are produced in great abundance in late May and early June. Varieties of both types are described elsewhere in this Catalogue.

EVERGREENS

The planting of Evergreens about the home is one of the finest investments one can make. They increase in value and beauty each year as they grow into larger and finer specimens. There is nothing to equal the Evergreens for adding warmth, color, and background to the home and grounds.

We are always glad to submit estimates for landscaping on request.

The following prices are for exceptionally fine, bushy, well-shaped trees, dug with a generous amount of soil and burlapped. You will find that our Evergreens measure well up to each size. Many of these varieties are fine for rockery work.

BIOTA orientalis aurea nana. *Golden Biota.* A popular, conical, dense compact plant retaining its golden tint all summer. Dwarf. 9 to 12 in., 90 cts.; 12 to 15 in., \$1.15; 15 to 18 in., \$1.50.

UP-TO-DATE ROSES

Of the many varieties of Roses which we offer in this Catalogue, we have selected a few to illustrate in color on these two pages. They represent a pretty good picture of modern climbing and bedding Roses. All of them show great advance over the Roses of a few years ago. Two of the Climbers are everblooming, and the other is the only really good *hardy yellow Climbing Rose* now in commerce, a thing which has been longed for by all Rose-growers for many years.

HYBRID TEA OR EVERBLOOMING ROSES

These are the most popular of all Roses because of their ever-blooming habit and variety of color. We have always made a special effort to deliver extra-fine, strong, budded plants direct to the customer from our nursery where they are grown. This insures fresh, vigorous plants that will thrive and bring much joy and satisfaction to the grower. It has been very gratifying to receive many favorable comments regarding the type of Rose plants we have delivered to satisfied customers in the past.

Roses like a deep bed of about 12 to 14 inches of good soil, with well-decayed manure spaded in. Set bushes $1\frac{1}{2}$ to 2 feet apart, placing them so that the junction of branches and root is just covered with soil. All classes of Roses should be pruned back severely to about 6 to 8 inches when planted.

Protect Hybrid Teas in the winter by hilling the soil up around the plants or by covering with a litter of strawy manure or leaves. Be sure to remove this early in spring.

Extra-strong plants, \$7.50 per doz., \$50 per 100, except where noted

Admiral Ward. Blackish buds, opening slowly to large, superbly formed blooms of good crimson-red; very fragrant. Grows moderately.

Ami Quinard. Fine, upstanding bush with numerous, semi-double, blackish crimson flowers, very dark and velvety.

Autumn. Gorgeous crimson-scarlet and gold buds, which open to deep yellow, very double flowers, streaked and flushed with crimson. Plant vigorous and free flowering, especially in the fall. 85 cts. each, \$9 per doz.

Betty Uprichard. A very fine Rose, unsurpassed in vigor, blooming, color, and resistance to heat or drought. Copper-red buds, opening to flowers of brilliant orange-carmine on outer surface of petals, showing light salmon reflexes.

Briarcliff. Large, pointed buds and double, high-crowned, fragrant blooms of brilliant rose-pink on good stems.

Charles K. Douglas. A fine, bright red, semi-double Rose which is becoming very popular.

Charles P. Kilham. Large, beautifully shaped blooms of brilliant red-orange, suffused with glowing scarlet; slightly fragrant. Foliage resistant to mildew. Vigorous, bushy, upright.

Comtesse Vandal. Plant Patent No. 38. Superb, bronze-tinted buds with rose and orange tones, opening to huge, shapely salmon-pink flowers flushed with gold and flesh tones. A consistent winner of first-prize honors. \$1.50 each.

Dame Edith Helen. One of the largest pink Roses known. Clear pink. Moderate growth.

Director Rubio. Reddish salmon flowers of huge size and broad, flat, open form. A very striking flower, borne rigidly erect on a vigorous, stout-stemmed plant.

Duchess of Luxembourg. A large, very double, rich golden yellow Rose of vigorous habit.

Duchess of Wellington. For many years considered the best yellow Rose. Enormous, tapering buds of golden orange, slowly opening to very large saffron-yellow blooms. Very vigorous and healthy.

Edel. Ivory-white, globular blooms, slightly fragrant. Need protection from disease.

Edith Nellie Perkins. An exceedingly fine, soft creamy pink flower deeply stained with ruddy copper tones on the backs of the petals. Fragrant, free flowering, and vigorous.

Etoile de France. Vivid crimson flowers with rounded centers of bright cerise.

Etoile de Hollande. Considered by many the best red Rose. Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant.

Gruss an Teplitz. A good bedding Rose with small, dark, velvety crimson flowers in profusion until frost.

Hilda. Very large, double, lasting flowers of bright carmine.

Independence Day. Flaming yellow buds, heavily shaded with copper and brown, opening quickly to light orange-pink flowers.

Joanna Hill. A glorified Mrs. Aaron Ward. Heavy lemon buds, developing into a very double bloom with Indian-yellow center, surrounded by bold, buff petals.

Jonkheer J. L. Mock. A gorgeous, very double, brilliant pink variety, shaded darker on the outside of petals.

Kaiserin Auguste Viktoria. Considered best white. An old standard variety with creamy white buds opening to perfectly formed blooms of snowy white.

Kardinal Piffl. Bushy plants of spreading, dwarf habit, with large, double, warm orange-pink flowers of handsome shape.

Killarney. Long-pointed buds, opening to bright pink blooms with large petals.

Konigin Luise. Large bud double, high-centered, very lasting white flower. 75 cts. each, \$9 per doz.

Lady Alice Stanley. One of the best and most dependable Roses. Massive buds and blooms of very large size, fully double, with outside petals coral-rose, inside pale flesh-pink. Unusually disease-resistant.

Lady Ashtown. A fine old standard variety. Satiny buds and double blooms of deep shining pink with yellow glow at base of petals. Disease-resistant.

Lady Hillingdon. Beautiful apricot-yellow; lovely buds, exquisitely formed; produced continuously.

Lady Margaret Stewart. Erect plants with large copper-orange buds opening to bright golden yellow flowers of wonderful shape.

Los Angeles. Beautifully shaped flowers of satiny pink, richly shaded with deep rose and gold. A very difficult Rose to grow in the East because of its susceptibility to black-spot.

Margaret McGredy. Brilliant red petals on hinges of deep gold. Buds upright. Free.

Mary Hart. Plant Patent No. 8. Very dark red Rose of the Talisman type, with curious mahogany-brown and sherry tones. An extraordinarily free bloomer, and the color does not turn bluish. \$1.50 each.

McGredy's Scarlet. Handsome, loosely formed, crimson Rose with glorious orange-scarlet sheen in the depths of its velvety petals. Plant unusually strong. 85 cts. each, \$9 per doz.

Mevrouw G. A. van Rossem. A good novelty with vivid orange and apricot buds, opening to brownish yellow flowers, strongly shaded with copper-pink. 75 cts. each, \$9 per doz.

Miss Rowena Thom. A striking novelty with gigantic blooms of brilliant satiny pink, shaded with orange-flame at center. Strong grower.

Mme. Butterfly. Finest of the Ophelia type. Bright light pink, shaded with gold.

Mme. Edouard Herriot. The original of all the bright orange-pink varieties.

Mme. Jules Grolez. Bright rose-pink blooms of pointed, pyramidal shape, with waxy petals of much substance. Fine grower and very free blooming.

Mme. Nicolas Aussel. Excellent new Rose with long coppery buds and vivid salmon-pink flowers of superb form, richly toned with gold and orange-yellow at the center. 85 cts. each, \$9 per doz.

Mrs. Aaron Ward. Low, bushy plants with good foliage. Delightful little buds of golden buff, opening to tawny gold and pink.

Mrs. Charles Bell. A salmon-colored Radiance. Very strong and healthy grower.

Mrs. Erskine Pembroke Thom. One of the finest yellow Roses, with long buds opening into perfectly shaped flowers of rich lemon-yellow. Very vigorous and disease-resistant.

Mrs. Franklin Dennison. Very large white blooms of unusual substance, sometimes lightly shaded pink and deepening to yellow.

Mrs. Henry Bowles. Magnificent flowers of dark, lustrous pink, very freely produced by a healthy, vigorous plant.

Mrs. Henry Morse. Flowers are bright pink, with silvery shadings, and are incessantly produced by low, branching bushes. Large buds and flowers.

Mrs. John Bell. Buds strong, reddish pink; open flowers glowing light salmon with vivid overtones. Plants strong; stems stiff. Promises to be a fine new garden variety.

Mrs. Pierre S. du Pont. Well-shaped golden yellow flowers and bushy, compact plants. A good novelty. 75 cts. each, \$9 per doz.

Mrs. W. E. Nickerson. Long, slender buds and deep, high-centered flowers with large petals of soft silvery pink, deeply shaded with old-gold and salmon.

Padre. Slender, erect plants, bearing large, almost single blooms of a very vivid copper-orange color.

Portadown Fragrance. Very large, fully double flowers of brilliant salmon-pink, flushed with orange-scarlet. Notable for its intense verberna-like Tea Rose fragrance.

President Herbert Hoover. An outstanding novelty of a real new color-combination—maroon, orange, and gold, rioting in the most contrasting fashion. Long-pointed buds, rigid stems, and good grower.

Radiance. The most reliable and most planted of all Roses. It has no equal for vigor and foliage. Brilliant rose-pink bloom of excellent globular shape and fragrance.

Red Radiance. Bright rosy red form of Radiance, with same qualities.

Rev. F. Page-Roberts. Marvelously colored flowers of golden yellow, stained with copper and reddish buff on the outside. A very unusual coloring.

Sir David Davis. Good free-flowering, scarlet-crimson Rose which is destined to become very popular.

Souvenir. Plant Patent No. 25. Pure golden yellow form of the famous Talisman. Free flowering, vigorous, and always satisfactory. \$1 each.

Souvenir de Claudius Pernet. Pure yellow flowers paling toward the edges. Glossy foliage. Flowers develop best in dry, warm, sunny days.

Souvenir de Georges Pernet. Stout, branching plants with large, brick-red buds opening to orange-pink flowers of immense size.

Syracuse. A new, outstanding bright crimson Rose. Beautifully shaped buds and blooms. Vigorous and healthy plant.

Sunkist. Rich, brownish orange form of the well-liked Joanna Hill. Splendid for cutting. 85 cts. each, \$9 per doz.

Talisman. The most astounding Rose novelty produced in years. Its brilliant yellow and orange-red buds open to large, fragrant blooms of glowing golden yellow, stained with copper-red and orange-rose on inside of the petals. Extremely vigorous and healthy grower.

Ville de Paris. A beautiful deep lemon-yellow which is steadily becoming more popular. Vigorous, wiry growth. An outstanding yellow.

W. E. Chaplin. A superb, glowing crimson Rose of handsome form and substance. Excellent growth.

Wilhelm Kordes. Strong, branching in growth, with large, very double, star-shaped flowers of salmon-pink, shaded with orange and yellow.

William R. Smith. Very vigorous plant. Long-pointed, creamy white buds, stained with pink; very double, well-shaped flower.

Willowmere. A fine substitute for Los Angeles without the faults of that variety. Long buds; brilliant pink flowers suffused with a golden light. Erect and vigorous plants.

Chaplin's Pink Climber

Hardy Climbing Roses

\$7.50 per doz., \$50 per 100, except where noted

American Beauty. Double, brilliant carmine flowers of especially fine form and rich perfume, borne in clusters.

American Pillar. Very strong-growing Climber with large, single, brilliant crimson-pink flowers, having big white centers and golden yellow stamens, in tremendous clusters.

Blaze. Plant Patent No. 10. Remarkable new everblooming form of Paul's Scarlet Climber with clusters of blazing red flowers all summer. Suitable for pillars or big shrub use. \$2 each.

Chaplin's Pink Climber. A new, beautiful, bright clear pink Climber that is extremely free flowering, covering itself completely with sheets of bloom.

Dorothy Perkins. Graceful, twining growth. Flowers soft shell-pink, small, crinkly, in clusters.

Dr. W. Van Fleet. Large flowers of exquisite pale pink on fine, long stems. Extremely vigorous and glossy foliage.

Emily Gray. A beautiful yellow Climber with golden buds and blooms that do not fade. Very attractive, glossy foliage.

Golden Climber (Mrs. Arthur Curtiss James). Plant Patent No. 28. Vigorous habit. Flowers large, unfading golden yellow. Best hardy yellow-flowering climbing Rose. \$2 each.

Jacotte. Sensational Rose with holly-like foliage and large, semi-double flowers of orange-yellow, tinted copper-red, borne in clusters. 75 cts. each, \$9 per doz.

Mary Wallace. Outstanding large-flowered pink Climber. It is a rapid grower, with very brilliant pink, long-stemmed flowers good for cutting.

New Dawn. Plant Patent No. 1. A marvelous new introduction, and the only Hardy Climber as yet that blooms all summer. It resembles the old Dr. W. Van Fleet in every other respect. \$1.50 each.

Paul's Scarlet Climber. The most popular red-flowering Climber of the day. Flowers large, well shaped, vivid scarlet-red.

Primrose. A new Climber with large, canary-yellow flowers produced in great profusion.

Roserie. Vigorous, thornless plant bearing large clusters of medium-sized, pale pink flowers.

Silver Moon. The favorite white Climber. Flowers semi-double, very large, with brilliant yellow stamens. Perfect foliage.

Spanish Beauty (Mme. Gregoire Staechelin). Remarkable Climber with large, long-pointed buds of crimson, opening to delicate pink, with curled petals stained crimson outside. Pear-shaped fruit following.

Polyantha Roses

Polyantha or Baby Rambler Roses

\$7.50 per doz., \$50 per 100

This type ordinarily is dwarfed and bushy, seldom growing more than 2 feet. It is very hardy, extremely easy to grow, and flowers continuously all summer.

Gloria Mundi. (New.) Large clusters of striking reddish orange buds and blooms of most amazing color. Compact bushes.

Ideal. A fine dark red variety that produces small flowers in large clusters.

Maman Levasseur. Bright purple-crimson, semi-double flowers with a lighter center, borne in dense clusters.

Miss Edith Cavell. Semi-double flowers of brilliant scarlet-red, shaded darker, produced in large clusters.

Mrs. W. H. Cutbush. Soft pink flowers borne in heavy clusters.

Orleans. The most popular light red sort for many years. Fine bushy plants crowded with clusters of flowers all summer.

Triomphe Orlonais. A profuse-blooming light crimson variety, a shade darker than Orleans Rose. One of the finest.
